Call for Interested Parties – EcoRehabPanel Project (NORTE2030-FEDER-02718000)

As part of the R&D project “*EcoRehabPanel - Development of prefabricated panels with functional and mechanical gradation for a more efficient and sustainable rehabilitation of the built environment*”, reference NORTE2030-FEDER-02718000, funded by the Commission for Coordination and Regional Development of the North (CCDR-N) through the Portugal 2030 framework program and specifically the Regional Operational Program of the North (NORTE2030), the recruitment of one (1) **PhD Researcher** to carry out activities in the field of Civil and Environmental Engineering, specifically involving scientific and technological research on the thermal, energy and environmental performance of façade rehabilitation systems, materials, and solutions for the built environment. The activities will include numerical modelling and simulation, experimental characterisation, assessment of energy and environmental performance, life-cycle and associated cost analysis, and the evaluation of low-carbon and circularity strategies, including ecodesign, reuse and recycling.

Under Article 6 of the Regulation on Career, Recruitment, Hiring, and Performance Evaluation of Research Staff under Private Law at the University of Minho, the position will be filled under the category of Invited Researcher under private law. This announcement invites interested parties to submit their expressions of interest by submitting a motivation letter and a CV to malmeida@civil.uminho.pt, by October 30th, 2026.
